(Dr. D. Fraser Harris)
(typewriting)

13, Norham Gardens,
Oxford.

Dear Harris,

I should be only too glad to help in a tablet of this sort to Hales. It would come much better of course from the Physiological Society, or possibly from Caius College. Certainly something should be done to perpetuate his memory in the church that he served so well for so long.

With kind regards to Mrs. Harris.

Sincerely yours,

Wm Osler
