Dear Boggs

I would like the figures of

1. No of Aneurisms in the wards for the 20 years & no of Medical patients patients in same time
2. No of p m's & no of aneurisms

He will have picked out as far as possible the figures for Syphilis If he has not finished all the statistics in time those are the main points I will want for the lecture and I would like reference to any very definitely syphilitic cases in young or middle aged men. My lecture is on Oct. 15th.

Yours ever,

W<sup>m</sup> Osler

You will have the travellers back soon. Barker has had a good time & Cushing returns laden.
