Dear Mr. Phipps,

I am sending you a book of great interest, 'Mosquito or Man', in which you will read the wonderful story of the Conquest of the Tropics. You will also get in a week or so my address on the same subject.

We have had a great Anti-Tuberculosis meeting here. We are trying to stir up interest and to get a dispensary started on proper lines. The Exhibition was a great success.

With kind regards to Mrs. Phipps and the boys.

Sincerely yours,

Wm. Osler.
