

(Typewritten)

(Dr. W. S. Thayer)
13, Norham Gardens, Oxford.
Nov. 24th, 1909.

Dear Thayer:

I am very glad indeed that you liked the photograph, and that it encouraged you in the use of your new optics. Send me word as to the date of the Welch dinner so that I can send a cable. I shall be delighted to have my name on the Committee.

I am so glad to hear too of the medallion.

Everything here is running smoothly, a very busy term with meetings. We have had a most satisfactory Tuberculosis Exhibition, and a great many nice fellows here.

You must have had a good time in Philadelphia. Mitchell has sent a very enthusiastic letter. It is a great matter to have got Fatcher safely settled.

Love to Sister Susan.

Ever yours,

Wm Osler
