

Oxford,

Jan. 13th, 10.

Dear Jacobs,

I do not believe you ever had a copy of this prospectus joke which I got our shortly after our return from that interesting trip.

Keep up Jim Frick's interest in the Library, get him to go over there occasionally. Miss Noyes writes very encouragingly about the progress of the work.

I have written about the Aesculapian statue.

Love to Mrs. Jacobs,

Sincerely yours,

Wm. Osler.
