(In Dr. Osler's hand-writing)

Postal card

Jan. 21²⁵⁷ 1910

Your section AA I and no mistake! It is one of the best things I have read and you have taken the whole subject so sensibly and in quite new lines. I do not know of any system in which the question is considered so thoroughly and so clearly. Congratulate Mrs. H. T. and your secretary. You really have a very happy way of putting things. Very few mistakes. I sent a few galley back to T. McCrae.

I am in bed with another attack of ^{renal} vesical calculus--rt. side. You remember the one 8 years ago in which I passed the unique quartz stone. This has lasted longer and I have enjoyed the luxury of two hypodermics. I am writing flat on my back which improves my hand-writing!

Love to Z., M. and the boys.

Yours,
