

From the Regius Professor of Medicine,

CUS 417/109.17

Oxford, Jan. 17th., 1910.

Dear Miss Charlton:-

I am sending you an interesting photograph of Bannister's anatomical lecture in Glasgow. It is one of the earliest representations of an English lecturer. Please have it framed at my cost.

When do you begin to move into the new library?

Sincerely yours,

(Signed)

Wm. Osler.

Dictated.
