Dear Shepherd

I am so distressed to hear that Cecil has been so ill. What an anxious time you have had but Francis says she is all right again; but it must have been a narrow escape. Give her my love & best wishes. I am glad you have the Mills question settled. He is very grateful for all your kindness in the matter.

I wish I could come out for the opening but it is impossible. I am coming in July (end of) & to get off in term would mean the application for leave.

A nice fellow called Herringham gives the address on Medicine at Toronto. Ask him to the opening. He is a Barts man & a good talker.

Love to E's wife and best wishes to Dorothy

Yours

W^m Osler
