From the Regius Professor of Medicine, Oxford.

March 7th.10

Dear Harry T.,

I will have the photo made at once and shall give you plenty of time; the man who does this work for us has been laid up.

I was delighted to see about the Trudeau celebration; thanks for the booklet and enclosure.

I am awfully sorry about von Pirquet; I was a bit doubtful as to the advisability of having him come out before the buildings were ready.

Love to the family.

Sincerely yours,

(Signed)

Wm. Osler
