March 31st, 1910.

Dear Mac:-

Congratulations on the final victory over the proofs, what a long drawn-out job it has been for you! I had a nice letter from the Leas the other day, saying how much they appreciated your work in the matter. I hope you think on the whole that it has been worth while. It has of course given you a unique sort of insight into the literary vagaries of the profession. To have got out the seven volumes within three years is really a great feat.

I am sorry to hear that ---- has "gone to pot."

Sincerely yours,

Wm. Osler.
