

(Typewritten)

CUS-17/110.2
(To Dr. W.S. Thayer)

From the Regius Professor of Medicine, Oxford.

July 2nd, 10.

Dear Thayer:

I was greatly grieved last evening to hear from Finney of the sad illness of Sister Susan, and of your great loss. Norton had mentioned in a letter to Jacobs that she was in the hospital, but said nothing as to the nature of the illness. I do hope that she is all right again, and that she has been left without any trace of the nephritis. Do give her my love and best wishes.

We hope to sail on the 29th of July for Quebec, and we shall sure come across you during the summer. G. and Tommy have to sail early in September as his school begins on the 15th. I shall stay - unless they decide to have the Caius Celebration early, in which case I must return with them.

Ever yours,

Wm. O.
