July 27-28

British Medical Journal, June 25, 1910, i, 1580

MEDICAL LIBRARY ASSOCIATION

Sir, - By the kind permission of the British Medical Association the second annual meeting of the Medical Library Association, under the presidency of Professor Osler, will be held at London University during the last week of July. Two short sessions will be held on the mornings of July 27th and 28th, at which papers will be read dealing with matters likely to be of practical interest and assistance to medical librarians, members of library committees, and readers.

It is also intended to hold a bibliographical exhibition in connexion with the meeting, as this proved such a successful feature of the meeting held in Belfast last year, and we shall be glad to receive offers of loans to illustrate the following sections of the exhibition:

1. Incunabula.
2. Books by London medical men up to 1600.
3. Photographs of and papers relating to medical libraries.
4. Special collections, etc.

We are, etc.,

I. Walker Hall, M.D.  
Pathological Dept., University of Bristol.

Cuthbert E. A. Clayton,  
Medical Library, University of Manchester.  
Joint Hon. Secretaries.

Manchester, June 15th.
