48 Dear Dr. Abbott:-

(Maude)

So sorry to miss you to-day - but I was hard pushed and had some 10 calls to make and the new M.G.H. plans to talk over. I am delighted with the prospects of the new Museum. It will be a great opportunity for you - a unique one in fact and I am sure you are 'up t' if. The men in the Faculty realize how splendid is the work you have done, and your growing reputation is of great value to the school. It is wonderful how much you have accomplished, and it is a real pleasure to me to be of any service. Do let me know if I can ever be of use.
