From the Regius Professor of Medicine, Oxford.

Sept. 27th, 10.

Dear Dr. MacMurchy,

I have not forgiven you yet
for giving us the slip; next time you must come here
directly from the steamer.

Thank you so much for sending me the picture
of E.B.O. with the children; he never lets his family
know what he does; he has got the best heart and the
freest hand of any man I ever met.

Sincerely yours,

(Signed) Wm. Osler.
