

(typewritten)

(To Dr. Laurason Brown, Saranac Lake)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

Oct. 11th, 1910.

Dear Brown:

I am very sorry to hear that you have been in the hands of the surgeons; but your secretary writes that you have pulled through safely, and are now very comfortable.

It was a great disappointment to me not to be able to come to Saranac but it was quite impossible.

It is too bad to hear that Trudeau has had a bout of Herpes to add to his other troubles. I had a long letter from Harry Thomas about him the other day.

With best wishes, and love to your surgeon.

Sincerely yours,

W^m Osler

(handwriting) Do come again before long.
