

13, Norham Gardens,
Oxford.

Nov. 11th, 10.

Dear Shepherd,

When will the Faculty settle upon the date of the opening of the new Medical School? I should of course like very much to be present, if it is possible. One has to look ahead a bit. As I told you June is out of the question for me on account of the examinations, which begin about the middle of the month. It would be awfully nice to get Strathcona to come out; the old man is in very good form. And you will be glad to hear that R.J.B. is himself again - - a new man.

Love to the family.

Sincerely yours,

W^m Osler
