

(Typewriting)

(To Leonard L. Mackall)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

Dec. 6, 1910.

Dear Mackall:

Thank you so much for the "De Anima" and the Conring. M's [Melanchthon] book is most interesting - really an admirable manual for the student, for that period.

You were elected yesterday to the Bibliographical Society, which is the first meeting at which it could have taken place. You will receive notice of course.

You will be glad to hear that my old friend Payne left me his copy of the [1790] reprint of the [Christianismi] Restitutio!

They are not very hopeful at the Press about getting anybody to do the Crabb Robinson, but they are to interview Prothero.

Sincerely yours,

W^m Osler
