

SS. Seti.

March 10th, 1911.

Dear Jacobs;

We have turned and are coming down the river stopping at the places we left over. Luxor was a great delight and we had a second visit of three days. Prof. Sayre, one of the leading Egyptologists, and Weigall, the Director of Antiquities, were most kind, and gave us valuable hints as to the best things to see. If you have not made the trip, I am sure Mrs. Jacobs would be enchanted. All sorts of chairs &c. make the visits to the Tombs so easy, and in many places there are carriages. I drive to the Tombs of the Kings, as it is so far, but yesterday I was on a donkey for four hours. I was afraid lest I should shake out a pebble, but I stood it comfortably. This boat is perfection & Barondi, the dragonian, manages everything for us.

It is kind of you to offer Billy Francis a billet - later I daresay he would be fit for it, but at present I think he should stay quietly at St. Agathe with his old friend Byers. He has gained 15 lbs. in five weeks.

Let us know your summer plans. With love to Mrs. Jacobs

Ever yours,

Wm. Osler.

I have seen nothing of the Hoe sale. I am afraid the prices will be beyond my purse.
