April 12th, 1911.

Dear Mac:-

re Text-Book.

I think if you would first go over all the sections on treatment carefully. Then the joint affections and typhoid, making memoranda on the way for our conference.

Keep concentration in view as there will be several new sections.

It would be awfully nice if you and Amy could get over in the autumn. Give her my love.

It was very sad to hear of Ned Cushing's death, he will be a great loss in Cleveland.

Sincerely yours,

Wm. Osler.
