(Typewriting)

(To Dr. J. Herbert Darey, Iowa)

13, Norham Gardens, Oxford.
May 23rd, 1911.

Dear Darey:

I will send you some books with pleasure, and will keep the Library in mind. Very glad indeed to hear from you, and hope you are doing well.

Do you suppose the cases you refer to are aggravated forms of the glandular fever? It is very rare in these cases to find suppuration.

I hear from Campbell Howard very often; he is evidently doing well.

With kind regards,

Sincerely yours,

W^m Osler
