13 Norham Gardens, Oxford

May 30th., 1911.

Dear Harry T.-

So glad to hear you are all right again. Everyone speaks of the success of the Neurological meeting and how well you did! What a mercy it is that all these new things come up in neurology. I have had a number of letters from Freud, who was an old time correspondent of mine in the days when I was working at cerebral palsies of children. Jones is a very enthusiastic fellow, but I am afraid he has not enough lead on his keel.

We are having a very busy time. This term is full of all sorts of frivolities. I have had to be in town a great deal.

Is there any chance of Hal getting the Rhodes Scholarship?

Love to the girls and boys.

Sincerely yours,

(Signed)

Wm. Osler
