Dear Mac:-

We shall go away somewhere early in August and get back to have you here in September. We could have a very pleasant time together, and go to town occasionally, and look over various sections of the book.

I would like notes of some of those cases of anorexia sent over. A woman died in the private ward about '91 or '92, a very remarkable case, and I think a very full (negative) post mortem.

I have just received Flexner's report, but have not had time to do more than glance at it.

Nona is having a very festive time. I daresay she will have written to Amy about the presentation. We are having glorious weather.

Love to Amy.

Sincerely yours,

Wm. Osler.
