(July 1, '11)

(Letter to Edward Milburn, Esq.)
(handwriting)

July 1st.

From the Regius Professor of Medicine, Oxford.

Dear Ned (congratulating him on title)

Thanks for your letter. Every one seems pleased. These things never bothered me - I have had so much more than my share, but in this country they mean much. It is nice not to have had to pull wires or worry ones friends. I cannot come out this year. I am very busy trying to get my text-book revised. I hope to be out next spring. Love to the family - I hope you keep well.

Yours ever.

WM OSLER
