(Dr. C. F. Martin, Montreal)

13, Norham Gardens,
Oxford, England.

(typewritten)

July 12th, 1911.

Dear Martin:

I am awfully sorry about this trouble over Pathology, not so much about the present, (though I am awfully sorry (2nd)!! that Adami should have been worried) but about the future. The University will never be able to get a first class man if he cannot have control over the Pathology at the Hospitals - it will simply be disastrous in the interests of the school.

All well here. Tell the boys I still take the same sized hat.

Sincerely yours,

W^m Osler.
