Dear Macphail:

I do hope by this time your poor eye is all right again. I was very distressed to hear of the accident. What a terrible ordeal it must have been for you! I hope to have something ready for the Journal before long. I have been horribly negligent, but the fact is I have been head over ears in work of one sort and another, and do not seem able to get through much.

Do drop me a post card saying how you are. If you come over please come to us for a while.

Sincerely yours,

W<sup>m</sup> Osler.

he says "We are doing ——— the survey"*
