Aug. 16th (1911).

Dear Dr. Jacobs;-

We are so glad of your letter from Newport. I do hope by now that Mrs. Jacobs is almost herself. I am still bemoaning the fact of the London misadventure and that I never saw her. It was really very disappointing.

With the exception of one thunder storm we have had a perfectly cloudless sky ever since you left. We have been here nearly two weeks - and are very happy. A most wonderful thing has happened. Campbell Howard who has been with us three weeks has fallen in love with Otilie Wright and they are engaged. He is madly in love and I think she is, but she is only 18 - and absolutely childish and I am worried to death - but please don't tell any one that I am. Revere is splendid and very happy here. All send our love to you both.

Affectionately,

Grace R. Osler.
