Dear Campbell:-

We are off to Lake Ogwin in the morning for a couple of days. A.G. will write to the Steamer and bid you bon voyage. I am sending this to *Borlan esk* You will be awful sad at leaving the light of your life but it will not be for long and we will look after her for you and she and I will talk you over - and I will look after your interests! We have had splendid letters from the girls who are delighted. It was a good stroke of business - a fine summer's ^Work. It is a great relief to me to have Otilie in the hands(arms!) of some one we know and love. I should have been heart-broken if she had gone off with some half-baked lad. I just love her dearly, and she will make you a bonnie wife. All well here - rain at last. I enclose some of Ike's sketches. Bon voyage. Love to the darling and to your girls at home. A big hug for Marjorie.

Yours ever,

W.O.

~~It is not necessary that this matter be made of the cold myself since the fact
is not likely to be of any importance or interest to anyone who reads any of the
letters I receive and I am sure of that. Of this probably the others in the household
will be told by the U.S. Justice.~~
