

(Dr. J.H. Pratt)

Llanello,

4th.

Dear J.H.

How has everything been progressing with you & your darlings? I hope the baby thrives & that the mother is keeping you in good order & not letting you work too hard. We have had a very heavy summer - so much on hand all the time. You will have heard of Campbell Howards lapse - such a sudden fall, but the light of his life is a darling - one of the brightest and best. A great pet of ours. She has been with us off & on for two years. Campbell is in great spirits. It is a good thing for him in every way. We have been here for a month in a quiet Welsh valley away from all visitors, living the simple life. I am trying to finish the enormous correspondence that poured in - more than 1000 telegrams & letters.

Ask Mrs. Pratt to send me a photo of herself with the baby - to go with yours.

Ever yours,

W^m Osler
