Dear Old Man

That is an awfully sweet editorial on your old playmate! I believe one of the girls wrote it. Thank you so much. Poor old Dick! What could he not have done had that damned heredity not caught him, All well here - very good summer. We have had Otilie Wright (H P.W's daughter) & Nona Gwyn with us. Such sprees! Campbell Howard (R.P.son now at the State Univ. Iowa) came for a few days & at once fell victim to Otilie Wright who has the ~~charm~~ ^{charm} of father & mother
Love to all at home

Yours ever

Don't know edtl. referred to but it may be one enclosed though I have an idea it is one containing the name by Zimmerman but if so I cant find it now. Zimmerman's trouble was dipsominia inherited from his father's side.

Have you Osler's Address to the Can.Club) ~~I wrote~~ ^{Toronto} a synopsis in Can. Pract. 1905 p 36

There is also an edtl. Can Pract 1905 p 338 - I have no separate copies of these, but I have one of his 1903 address to our students. His addresses in Toronto were to some extent different from others.
