Dr. C. P. Howard

Dear C.:

Your girl got off last week in fine form, fine feathers and good spirits. She is just a darling and when you see her in that blue suit and in that ~~born~~ one you will be crazier than ever. Her things are perfectly lovely and if Iowa City does not go wild over the bride of the P. of Med. I do not know the West. Everything turned out satisfactory. She has ~~luck~~^{luck} with her. We are desolated, left alone and now A.G. goes off tomorrow, but I have a deuce of a lot of work on hand. I am getting thro, the text-book at a good rate. We go to press early in January.

I am afraid there is no change for the ~~Reverse~~^{we} de Med. by the Smithsonian - each vol. is above the limit 4 lbs. Perhaps the Univ. will be getting out a big consignment into which they could go.

Marjorie's 2nd. should have been a girl. I am disappointed he was not twins.

Yours ever,

W.O.
