

CUS 417/112.73

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

(Typewritten)

7th February, 1912.

Dear Mr. Phipps,

I send you a Book Lover's Anthology, which we have just issued from the Oxford Press, and in which I think you will be interested. The selections have been uncommonly well made.

I hope you and Mrs. Phipps are having a good winter at Palm Beach. Your edition of Pasteur has been very much appreciated. I shall be at home till April working at a new edition of my Text-book.

With kind regards to Mrs. Phipps

Sincerely yours,

W^m Osler
