Oxford.

Dear H.A.K. (elly)

So glad you are to have a good biography of Nott. Was not Gliddon also a physician? The 'Stethoscope' ode is very interesting, I am very glad indeed to have it.

I talked with Simmons this summer about the publication of your Encyclopedia, which I believe could be legitimately and successfully undertaken by the American Society. No doubt Welch as President would have a little delicacy in bringing the matter before the trustees, but the question is one of public policy and interest, and would receive a warm support, I am sure, from the members of the Association. Meanwhile I would not try to arrange with any publisher.

With sincere regards.

Ever yours,

(signed) W. Osler
