

(Pasteur group - 9)

(Mr. Henry Phipps)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

12th February, 1912.

Dear Mr. Phipps,

I have not bothered to send you on all the letters which I have received from the librarians of the different medical schools, some of whom have no doubt written to you directly, but I enclose this one from Salt Lake City as a good sample. I am sure the book will be of the greatest value to students. One of the London librarians mentioned to me the other day that their copy was in almost constant demand.

With kind regards to Mrs. Phipps,

Sincerely yours,

Wm Osler
