To J. McCaa

W. Osler

February 23rd, 1912.

Dear Mac:-

I am glad to see the proofs, which I am reading carefully and returning rapidly. The respiratory section goes today, and the heart section next week, so that will not leave very much. The others will follow just as fast as I can get them off.

I do not think there is going to be any increase in the size of the book, for as you will see I have cut out a good deal. All right about Pellagra and Beri-Beri among the intoxications.

Love to Amy and Nona.

Sincerely yours,

Wm. Osler.
