[asked by telegram June 17th that catalogue be sent to Oxford].

CUS 417/113.78

Oxford, 20th June 1912

Fock has sent me the catalogue, which is interesting as containing a large number of "Sonderabdrücke" and dissertations, and a good collection of the historical archives. It would be a very useful collection for them at the Johns Hopkins; only it is certainly not worth M.10,000.

.....I am glad you liked the Linacre ~~[Linacre library]~~; he was an interesting old character. Hiersemann has just sent me word about an Aderlass Kalender at a shocking figure; they are very interesting: we have a number of the very earliest at the Bodleian...I have written Fock asking for the lowest price for the Pagel library, as I must know that before writing to Baltimore.....
