From the Regius Professor of Medicine, Oxford.

8th July, 1912.

Confemi Medicis?

Dear J. T.

No, indeed I did not; I wish I had. The author is still doubtful. They are excellent.

I am sorry you are not coming over this year. We have just got back from Dublin, where we had a delightful gathering at the Bi-Centenary Festival. The old school at Trinity College, Dublin, has been very remarkable. We saw a great many interesting things of Graves and Stokes.

I am so glad the University gave you the LL.D. After all, you have had a fine innings in the old School, which owes you a great deal.

We go off to Scotland for August, where my boy can get some fishing. He is a devoted follower of Isaac Walton. I have just finished the new edition of my textbook. You will have a copy before long. There are a good many changes, and I have re-written some sections.

With kind regards,

Sincerely yours,

(signed) Wm. Osler.
