

(Typewritten)

(To Mr. Henry Phipps)

From the Regius Professor of Medicine, Oxford.

22nd July, 1912.

Dear Mr. Phipps,

I am sorry to have trouble you about this matter of your Oxford endowment subscription, which I understood had been definitely earmarked for the Medical Department. I have a letter from the Secretary of the Oxford Endowment in which he says that "there was no definite allocation". Unfortunately I have not got your original letter. The situation is somewhat embarrassing, as we have built the new building at the Infirmary and have arranged the clinical laboratory specifically in connection with your gift of £ 12000.

Sincerely yours,

Wm. Osler.

13, Norham Gardens.
