

Jacobs Mrs.

13 Norham Gardens, Oxford

(July) 26th, (1912)
avg

Dear Jacobs;

So sorry to hear that you have been 'seedy'. I hope you are all right now. Dr. Halsted told me Miss Garrett had Splenic Leukaemia which is of course a very serious disease. She was a little better when he heard. They were to be at Bryn Mawr all summer, I think.

Good news indeed about the J.H.H. Money is sure to come in. I must tell Nicholls about the Erasmus medal. - tho he probably knows, as he has an extraordinary knowledge of all details about the old man. He is editing for us all the letters. We, Bodlean, bought 25 this winter at £ 25 apiece! We had none. Is there a reproduction of the medal? Mrs. N. will probably issue for us an edition of the Eoonium Moriae and the medal would go well on the cover.

Revere is having the time of his life. Had a big salmon on for 1½ hours this afternoon - on your trout rod! - a monster, but at his 5th leap, & last, he fell across the line & broke the cast. We are going to Skibo for a week. Carnegie has often asked me before. I shall be interested to see the Laird at home. We return to Oxford about the 10th. Let me have a P.c. saying how you are.

Yours,

Wm. Osler.

Love to Mrs. Jacobs.
