Dear Garrison:

Nixon, the editor of the Bristol Journal, writes to me that he would be delighted to have Dr. Fletcher's paper. The sketch, which they have asked me to write of him, has been deferred till the December number. Could you send me at your leisure a good photograph of him, as I think it would be nice to have it reproduced with the sketch.

Thank you so much for the list of men. The History Section is going to be very satisfactory; they have got a good list of papers.

Is there a separate copy of the medical Incunabula at the library? I have become interested in the group of the earliest printed medical books. I will send out a list to you and you could tick off those you have.

I do hope you will be able to come over next year, I think we are going to have a very important gathering.

Sincerely yours,

Wm. Osler.
