

(Typewritten)

(To Mr. Henry Phipps)

From the Regius Professor of Medicine, Oxford.

(1912)

13 Norham Gardens.

September 19th

Dear Mr. Phipps,

Your generous gift will delight the Committee which meets today. It is most kind and considerate of you to help us in this way. We are gradually getting the work in the town and country very well organized, and I hope it may serve as a model to other places.

I enclose you a title page which Mackenzie said you wanted for the introduction which I wrote.

Unless I hear that you and Mrs. Phipps are engaged, I will come up tomorrow and have a cup of tea with you, calling about 4:15. I must return in the evening as we have friends to dinner.

I am making out a list of the libraries.

Sincerely yours,

Wm. Osler.
