

Dr.
(Letter to H. A. McCallum- London, Ontario)

23rd September, 1912.

OXFORD

Dear McCallum,

Thanks for your kind invitation. I am afraid it would be quite impossible for me to give the address in Medicine this year, much as I should like to do so. I have got a pretty heavy programme ahead. As you know we have the International Medical Congress, of the Medical Section of which I am president. - By the way, we hope to see you at the Section with something in your hand. - Then in April I have to go out to give a course of lectures at Yale. I was to have gone this autumn, but the date has been changed. Then June is a month in which it is hard for me to be away; so that I do not think I can promise you. You are sure to have a good meeting. I remember a very happy one in London a few years ago. I am delighted with the Journal. It is a great credit to the country. Francis ought to do well with it, as he is a man of very good literary judgement.

Love to all the brethren.

Sincerely yours,

WM OSLER
