

C O P Y. (Dr. Jesse Myer)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

30th Sept., 1912.

Dear Myer,

*Miss Myer's letter*

I am delighted with the book, which is really a splendid contribution to American Medical History. What a lot of work you have put into it! And it must be satisfactory for you to feel that the job has been done in such a way that it cannot be done over. I hope to be able to write a review of it for the Journal of the Canadian Medical Association, to which I occasionally send brief articles.

And now I wish you would turn your attention to Daniel Drake. His family papers and records must be somewhere! and they would be of extraordinary interest in connection with the early history of the profession in the Mississippi Valley. There is a good deal written about him, of course, but nothing definitive.

Sincerely yours,

WM. OSLER.
