Dr. William Osler's lectures forma book of most interesting reading. His style of expression is charming; His choice of words is admirable; his reasoning is powerful; his knowledge of men is wonderful; his manner of treating the mistakes of others is tender and sympathetic. I am amazed at his wide acquaintanceship with mythology, Greek and Roman Authors along with his wide professional skill. I am cheered to see how reverently he believes and adores the Bible. I am exceedingly pleased with his book and have more respect and love for life and man.

Country School Teachers comment after reading my Aequanimitis.

Reply to Long's Comment.

From the Regius Professor of Medicine, Oxford.

8th October, 1912.

Dear Miller,

What a sensible old man! It was very kind indeed in you to send that slip. I appreciate it very much. I hope you are well and 'going strong' as usual.

Greetings to all my old friends at Hagerstown.

Sincerely yours,

(Signed) William Osler.
