I had not noticed the "v" before your name, and will have it removed at once.- There is no hurry about the precise plan of your paper. I am trying to arrange that the other sections shall not have the cardiac discussions on the same day.-

I am very sorry to hear that you are to stop with Keith. Lady Osler and I had hoped to have both you and Mrs. Wenckebach with us. Would you ~~ask~~ ask Mrs. Wenckebach to do a commission for me in Strassburg? - to go to the very best place she knows and ask them to send a pot of the best paté de fois gras to A.T. Carter Esqu. f

Christ Church, Oxford. I suppose they are put up in different sizes? Ask her to send a medium size please. Let the bill go with it, and the money will be forwarded at once.-
