(To Dr. John W. Churchman)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

6th November, 1912.

Dear Churchman:

Will you please undertake the revision and boiling down of the whole section on Syphilis for the second edition of "Modern Medicine" which is to be in four volumes only. Look over the historical part carefully, as there has been a great deal of new work done of late. The next time you are in New York look at Sudhoff's big fasciculus.*

I hope all goes well with you at New Haven. I look forward to seeing you in the spring, when I am there to give my lecture.

Sincerely yours,

Wm Osler.
