C O P Y.

From the Regius Professor Of Medicine, Oxford.

23d Nov. 1912.

Dear Stokes,

The dates you settle upon are quite satisfactory:- the first lecture on April 21st, and I will give my address to the students on Sunday April 20th. It is very much more convenient to me than the autumn date would have been, tho' I am sorry not to be at so interesting a ceremony, which, I know will be very helpful to the development of the School.

I hope the child continues to improve.

Sincerely yours,

(Signed)

Wm. Osler
