

C O P Y

From the Regius Professor of Medicine, Oxford.

20th Dec. 1912.

Dear Stokes,

I am delighted to hear about the little girl. It is very gratifying.

One or two things about the lectures ---

1. Where will they be published? Why should they not be printed over here, where it is much cheaper?
2. You will probably sell a very large number: I should not be surprised if it were more than would cover the lecture fee, in which case, would you pay for the cost of the illustrations and photographs, of which I think there should be a certain number?

Sincerely yours,

(Signed) Wm. Osler
