

13 Norham Gardens,
(no month) 21st., 1912.

Dear Miss Charlton:-

You will be glad to hear that I have secured two more diplomas for my collection at McGill - a 1599 Leyden and a 1695 Rome. The early Leyden Diplomas are very rare. Do send me a list of all of those which I have deposited - the University and date as I do not wish to duplicate them. I hope you have got everything in order for the opening. I am sorry not to be able to come out - but it is impossible. I am afraid these new diplomas will not arrive in time. I got at the same sale a manuscript of Laennec - his autographic article on Bayle and a letter. I have been getting some thresures of late and am nearly ruined - So glad to have the photograph of the reading room - very comfortable. You must be very happy in the new quarters.

Sincerely yours,

(Signed)

Wm.Osler.
