(Letter to Adam H. Wright, M.D.)  
(typewritten)

28th Jan. 1913

From the Regius Professor of Medicine, Oxford.

Dear Adam H.

I am delighted to see the very full account of the dinner to you and to read all the nice speched in the Canadian Journal, which some one has sent me today.

Cameron was in splendid form. The only objection I have to such gatherings is that they show that we are getting on, and are no longer with the boys. Still we have had a very good innings, and you have not much to regret.

Love to the family all,

Ever yours,

WM OSLER
