6th February, 1913.

Dear Von Noorden,

I am sure the Committee will allow Rosenfeld 20 minutes for the report. We shall be very glad to have Weichselbaum's paper at our section. It could come in as part of the discussion on the general theme introduced by yourself and Dock. There are a great many men applying to speak on this question, so that a majority of them will have to be limited in time, but I will see that Rosenfeld and Weichselbaum have their full 20 minutes each.

Sincerely yours,

Signed. Wm. Osler.
